

Ingredients:

Over 60 grasses and herbs harvested from Bavarian Alpine meadows

BENEFITS:

- Premium forage based feed -100% pure and natural. No preservatives, additives, binders or fillers
- Contains over 60 grasses and herbs
- Free from dust and moulds
- Chopped fibres compressed into 18mm cob nuts
- Low protein, sugar and starch

RECOMMENDED USE:

- Ideal feed for all horses
- 100% or partial forage replacer
- Substitute for concentrated grain feed
- Ideal for soaking and feeding to horses with poor teeth
- Suitable for horses with respiratory problems – product is free from dust and fungal spores
- Suitable for horses with EMS (insulin resistance), PPID (Cushings) and laminitis
- Perfect treat or training aid - not suitable fed dry for horses with poor teeth

RECOMMENDED FEEDING:

- We recommend moistening Wiesencobs to your horses taste preference - add 1.5 to 3 litres of warm or cold water to 1kg of Wiesencobs. Leave for 20 minutes
- As a 100% forage replacer – give 1.2kg to 1.5kg per 100kg body weight e.g. for 500kg horse you would give up to 7.5kg of cubes per day split into several meals
- As a partial forage replacer, adjust amount according to feed requirements. 1kg of Wiesencobs = 1kg of hay
- As a replacement for concentrated grain feed: 1.2kg Pre Alpin Wiesencobs replaces ca. 1kg cereal/grain feed
- Can be fed dry but imperative you introduce very slowly to avoid colic. We strongly recommend soaking
- Do NOT feed dry to horses with poor teeth as they are prone to choke. Use Pre Alpin Senior as an ideal forage feed for your veteran or soak/moisten this product as indicated above
